### DETAILED ACTION

This application was filed 31 December 2003 and is a CON of PCT/EP03/07024 (7/2/2003) which claims priority to France 0208949 (7/16/2002). Claims 1-49 are before the Examiner and are subject to the following lack of unity of invention.

#### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-6, 8-20, 36, 38, 40, 42, 44, 46, and 48-49, drawn to compounds, pharmaceutical composition, method of making and first method of use of compounds of formula (I).

Group 2, claim(s) 7, 22-33, 37, 39, 41, 43, 45 and 47, drawn to pharmaceutical composition and method of treatment using a compound of formula (I) plus another active ingredient.

Group 3, claim 21, drawn to a diagnostic agent using a compound of formula (I).

Group 4, claim 34, drawn to a diagnostic agent using a compound of formula (I) plus another active ingredient.

Group 5, claim 35, drawn to a method of reducing side effects using a compound of formula (I).

2. The inventions listed as Groups 1-5 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

corresponding special technical features for the following reasons: Groups 2 and 4 need to have the compound of formula (I) plus another active ingredient. Groups 1, 3 and 5 have different methods of use that can be used separately.

3. A telephone call was made to Joe Rossie on 4/20/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to D. Margaret Seaman whose telephone number is 571-272-0694. The examiner can normally be reached on 630am-4pm, First Friday Off.
